Curtis Williams

SENIOR GTM SYSTEMS ENGINEER | AI & REVENUE SYSTEMS ARCHITECT

Denver, Colorado | ce-williams.github.io | LinkedIn | GitHub

AI-native systems engineer specializing in GTM architecture, Salesforce ecosystems, and agentic workflow design. Builds automation and API-first systems that reduce technical debt and support scale.

CORE SKILLS

GTM systems architecture / Salesforce / Apex / Flow / Salesforce CPQ / LeanData / Copado / GitHub / Claude Code / ChatGPT / Gemini / API integrations / Census / SQL / dbt / BigQuery / Xactly / Data governance

PROFESSIONAL EXPERIENCE

Senior GTM Systems Engineer | Fivetran

Apr 2024 - Present / Remote · Denver, Colorado

- Built agent workflows and Claude Code skills for LeanData routing, Salesforce CPQ product configuration, metadata analysis, and deployment troubleshooting.
- Reworked LeanData and Salesforce routing to sub-second processing; reduced unwanted account creation by 81.5% (4,879 accounts avoided).
- Led the transition to a Copado and GitHub deployment pipeline across Salesforce and revenue systems, supporting multi-environment releases and a zero-downtime fiscal-year launch.
- Removed 56 objects, 350+ fields, and 30+ automations; reduced 13 GB of storage and strengthened governance for future integrations.
- Reduced System Admin roles from 125 to 61 and cut admin-level permissions by 50%.
- Configured Census reverse-ETL syncs, authored BigQuery and Salesforce-history SQL for Xactly compensation, and partnered on dbt models.
- Resolved an end-of-quarter CPQ outage in under an hour and delivered address validation that reconciled a $2M discrepancy.
- Led Salesforce-Rocketlane integration delivery and used browser-based agents for Salesforce UAT.

Software Engineer II | Transcarent

Nov 2021 - Apr 2024 / Remote

- Built and scaled Salesforce integrations during the 98point6 merger using Apex, Flow, and API-driven architecture with HIPAA compliance.
- Developed and optimized Apex service classes, triggers, and Flow automations across opportunity, product, and billing workflows.
- Partnered with Marketing on Account Engagement automation and led the 2023 internal hackathon.
- Contributed 900+ GitHub commits in 2023 and led major repository changes.

- Drove roadmap planning, test strategy, and technical-debt reduction with an emphasis on automation reliability.

EARLIER EXPERIENCE

Salesforce Developer | Vantage Point Consulting

Apr 2021 - Oct 2021 / Minneapolis, Minnesota

- Led financial-services client projects in developer and architect roles, delivering Apex, Visualforce, LWC, Aura, and Salesforce automation.

Associate Software Engineer | Boom Lab / Threebridge

Jan 2020 - Apr 2021 / Minneapolis-St. Paul

- Client assignments: Salesforce development at Cantel Medical (Oct 2020-Apr 2021), and product-configuration engineering at Andersen Corporation (Jan-Sep 2020).

Sr Specialist, Space and Presentation | Target

Apr 2018 - Jan 2020 / Minneapolis, Minnesota

- Progressed from Space and Presentation Coordinator to Senior Specialist in July 2018. Developed store layouts and coordinated merchandising work across large store programs.

- Partnered on the launch of three apparel brands across more than 1,000 stores.

Co-Founder | SSQTCH, LLC

Jun 2015 - Jun 2017 / Minnesota

- Co-founded a video and film production company. Worked on client development, video marketing, editing, and creative projects, including work with Red Bull.
